

Useful Contact Info for Expressing Opinions on Timber Harvesting in the MPR

Thanks to all of you who came to the Bay Club on September 29 to attend the Community Forum on Timber Harvesting within the Port Ludlow Master Planned Resort. Various suggestions were made about ways to let the county and PLA know your opinions about further clear-cut timber harvesting within our community. One of the suggestions was to send letters and/or emails to the county, to PLA, and to PLA's parent company (HCV) in San Francisco.

Here is contact information for PLA and its parent company and for various Jefferson County officials. We suggest that any letters or emails to the county be addressed to the three county commissioners, with copies to County Administrator Morley, County Prosecutor Haas, and Department of Community Development Director Charnas. You may also wish to send copies to Mr. Verrue and Ms. Smeland at PLA, and to Mr. Crosby at HCV in San Francisco. Although it certainly is not necessary, it would be appreciated if you would also send Dave Jurca (djurca@helsell.com), Bill Dean (cmdwbd@gmail.com) and Dave McDearmid (dmcdearmid98365@gmail.com) copies or blind copies of any letters or emails you send to the county or to PLA or HCV.

Also attached are some "talking points" you may want to consider in formulating and expressing your own thoughts to the county or to PLA. We encourage you to express your own ideas in your own words, emphasizing whatever points are important to you. Please remember that it is usually more effective to be firm but respectful in tone rather than shrill or threatening. We appreciate the county's efforts thus far but we want to encourage the county to take firm steps to enforce the Development Agreement and applicable zoning laws to bring this dispute to a prompt and satisfactory resolution.
